

# WATERCOLOR SNOWFLAKES

## Lesson of the Day:

No two snowflakes are alike-  
embrace the things that make you  
different from everyone around  
you. They are also the things that  
make you beautiful!

## Materials:

- Coffee filters
- Watercolor paint
- Scissors

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students use watercolors on the coffee filters to make beautiful patterns. Have each student do multiple coffee filters in case the snowflakes don't come out well. (Sometimes the wrong part gets cut and it falls apart).
3. Allow time for the coffee filters to dry completely.
4. Fold the coffee filters several times and let kids cut out shapes. Open them up and see your new snowflake!
